

Monthly Edition September 2010 - Issue 1

Update your Look for under \$100!

We know that styling and custom fitted clothing costs hundreds and even thousands of dollars which not everyone has the wallet to do all the time if at all. Abracadabra steps in as a girls best friend once again for adding longevity, confidence and shape to your wardrobe. Extending outfits, revamping last season to a classic shaped look and adding class and comfort to both inexpensive and quality designer clothing. What's more once you have your 'Abracadabra' this girls best friend is here to stay lasting time and again.

- **Use magic inserts** no matter what size you are to fill in gappy areas of fabric, they are not only excellent for the best boost in cleavage but for adding shape to the sides of tops and dresses that would otherwise look too blouson. (\$59.95 NZ).

- **Use our fashion tape** for smoothing areas of fabric and take 3 kilos off your silhouette and frame! (\$14.95 NZ).

Pay attention to taping under the sides of short sleeved, sleeveless, halter neck and off the shoulder tops.

Fashion tape is a "must have" to make an impression at any event, date and definitely needed at all photo shoots!

Stay tuned for more how to's next month and watch out for the Abracadabra team all taped up in fashion tape!

Designer, Natalie Chan

Natalie Chan and her team

Natalie says:

" I wore Abracadabra in my wedding, all 4 of my bridesmaids and I even talked my Mom into wearing your bra! My Abracadabra has also been taken to Europe a couple of times now! It's been really good! I love it and so do all my girls at work! "

Watch out for Natalie's exclusive wedding photos in our next edition!

your questions

Q: *I am really embarrassed about the size of my bust to the point of feeling rather self conscious and not confident about wearing certain clothes. What do you think?*

A: Don't despair, Abracadabra offers a range of cleavage enhancing bras and inserts that will give you the cleavage and confidence that you have always wanted to wear all the latest fashions.

Many top models and beautiful women in the world have a small chest and look fabulous as they are.

We recommend starting with silicone push up pads as a small and natural confidence boost, that blends with your natural frame. Or magic inserts for days when you want to feel more voluptuous.

Remember girls be grateful for what you have. A smaller bust can be less maintenance and many women envy what you have!
